(entrance via Collinsvale Street)

*Proudly an Australian owned company, designing and producing
acoustical products for the diesel powered industry.*

Nelson Exhaust (Qld) Pty Ltd was established in Brisbane, Queensland in February 1985. The company's directive is to serve the diesel industry with a complete and extensive range of exhaust equipment.

Nelson Exhaust has an extensive range of Nelson Global Products, Tieceo & Donaldson products with over 2500 exhaust and air intake parts.

To cater for the diesel industry a huge array of stock items consisting of v-band clamps adaptors, bends, mufflers, flexible tubing, chrome stacks, tubular fittings, heat shields and tubing from 25mm (1") to 254mm (10") are available over the counter.

These products can be used widely in the diesel industry including on-highway heavy and medium duty trucks, stationary power units, industrial equipment, construction, mining, agricultural and marine.

AFTERMARKET PRODUCTS

After market mufflers are manufactured in our Rocklea factory to suit all types of transport, earthmoving, agricultural, mining and construction equipment. Caterpillar, Komatsu, Hitachi, Volvo, International and many more are all catered for.

Also manufactured at the Rocklea plant is a complete catalogue range of Industrial, Residential and Critical silencers for Gensets, Pumpsets and Marine applications where noise emission restraints are necessary. Other items utilized in this zone are vibration/expansion joints and catalytic purifiers.

DESIGN & MANUFACTURING

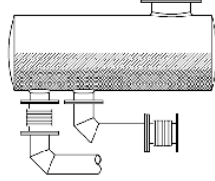

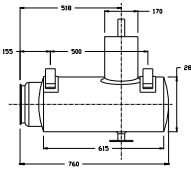

Our staff have over 35 years experience and over these years have established a unique partnership with our customers and suppliers. The professionalism and technical knowledge our staff bring to every product we produce is only matched by our dedication and commitment ensuring that our customer's needs are met.

design & manufacture

We have on file an extensive range of after market mufflers to suit every type of plant equipment or machine.

We specialize in custom size adapters or staff can manufacture to your specific requirements.

Industrial, Residential and Critical Residential silences for Gensets, Pumpsets and Marine applications are all designed & manufactured at our Rocklea factory.

A complete range of Silencers can be viewed on our web site www.nelsonexhaust.com.au then click on the Exhaust-a-Logue tab then click on Silencers tab.

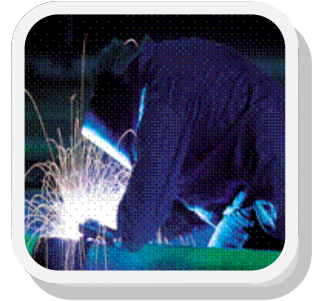

repairs to muffler & tube work

Bring in your damaged parts (muffler and/or tube work) for repair or replacement.

Our experienced workshop staff are capable of doing small or large repairs but it must be off the vehicle.

MIG & TIG welding available

Mild Steel, Aluminized,
Aluminium & Stainless Steel

EXHAUST GAS PURIFIERS

Exhaust gas purifiers lower carbon monoxide hydrocarbons and other odors in engine exhaust emissions by up to 90%.

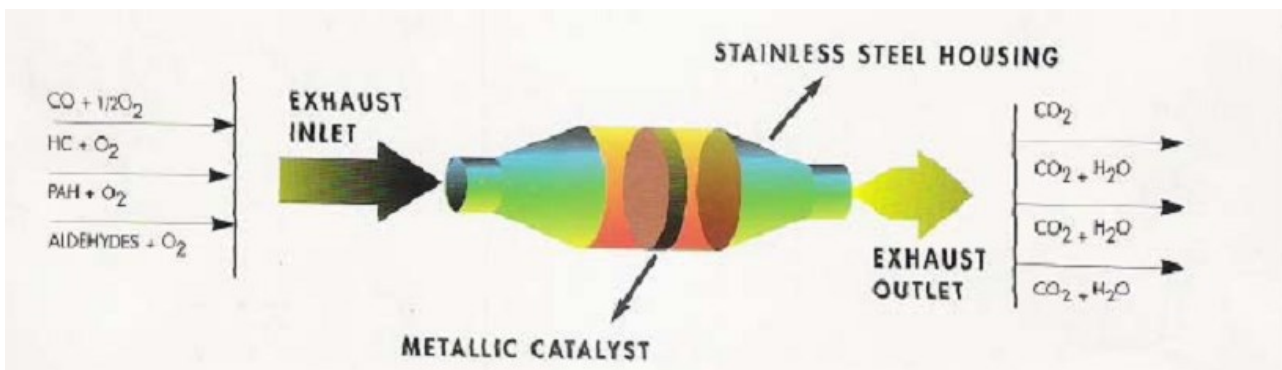

This translates to less eye irritation & diesel odour is virtually eliminated. Improves air quality and working conditions for your staff.

- Underground mining
- Generating sets
- Stationary engines
- Trucks
- Buses
- Pumps
- Compressors
- Excavation & construction machinery

The conversions take place as the exhaust gas passes through a metallic substrate coated with precious metal and is packaged into a robust stainless steel housing. Catalytic action commences when the exhaust gas temperature entering the purifier reaches approximately 200°C.

The Conversion rate is a function of temperature with maximum efficiency achieved when the engine is operating at full load.

- Mitre Cut stacks gives the impression of a quieter vehicle as the noise is directed away from the ground.
- These stacks have a angle cut of 45° at the top of the stack.
- Also known as West Coast and Angle Cut stacks.

- When using a straight stack, remember your raincap
- Nelson Exhaust is proud to offer a selection of Zinc or Chrome plated genuine 'Mercury' manufactured raincaps.
- The primary function of any raincap is to protect the muffler and exhaust system from rust and carbon residue.
- Our raincaps feature a single bolt mounting design and have been heavy duty welded for a longer service life.
- These raincaps are precision balanced and include nylon stops for a 'QUIET' operation.

HEAVY DUTY AIR COMPRESSORS

Pacbrake’s Heavy Duty HP625 air compressors have a 100% duty cycle and are offered in two pump head configurations, vertical & horizontal. These 3/4 horsepower compressors have an oil-less design, sealed bearings, a PTFE piston ring, a copper wire wound permanent magnet motor and a cast steel cylinder with a hard anodized aluminium sleeve.

If you need onboard air for exhaust brakes, air horns, air seats, air suspension or just blowing up tyres then this is the system for you.

Part # HP10625V

**INSULATION KITS AVAILABLE ON REQUEST
Part # HP10116**

AIR TANK KITS

Working in conjunction with an air compressor, an air tank stores the compressed air and holds it until needed. Storing air allows for quicker product activation and is especially valuable when operating more than one product. Pacbrake offers three air tank sizes to meet everyone’s needs. 1/2 gallon tank, 2 1/2 gallon tank & 5 gallon tank. Each air tank kit comes complete with air tank airline, dryer and fittings.

- HP10053 1.9 litre tank
- HP 10050 9.5 litre tank
- HP 10051 19 litre tank

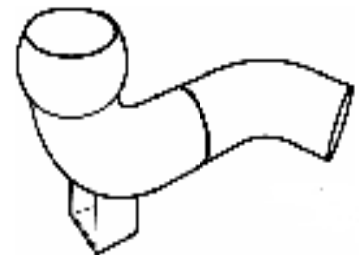

**Part # HP10050
Tank Only—Part # HP10093**

- V-Band Clamps are made of Type 321 Stainless Steel
- The function of a V-Band clamp is to connect the manifold or turbocharger to the exhaust system
- These type of clamps are designed to cater to the majority of engine applications and are available in a variety of sizes.

- Used where special angles are required.
- Cut angles are available for special orders.

FLAME PROOF TANKER KITS

Flame Proof Tanker Kits are designed to conform to Australian Standard AS2809.1 and AS2809.2

A **Standard kit** consists of

- stainless steel top & bottom shroud
- stainless steel transition cap
(1 large, 1 small)
- bracket mounting rings (2)
- muffler pipe mounting brackets (2)
- chrome plated straight stack
- chrome plated silent raincap

Can be ordered with a deflector instead of straight stack & raincap.

Pipe shrouds are supplied in a "kit" form.

Also available **Pipe shroud kits** in short length 1500mm and long length 2290mm in sizes to suit 3" to 5" tube.

The **Short kit** consists of

- one transition cap
- two shrouds
- one connect ring
- one mounting ring/bracket
- one set of pipe support brackets

The **Long kits** consists of

- one transition cap
- three shrouds
- two connection rings
- one mounting ring/bracket
- three sets of pipe support brackets.

Top shrouds have an unperforated band near one end. This allows shortening of the shroud by 200mm if required for your application.

Shrouds listed are supplied **without** transition caps, mounting rings or support brackets.

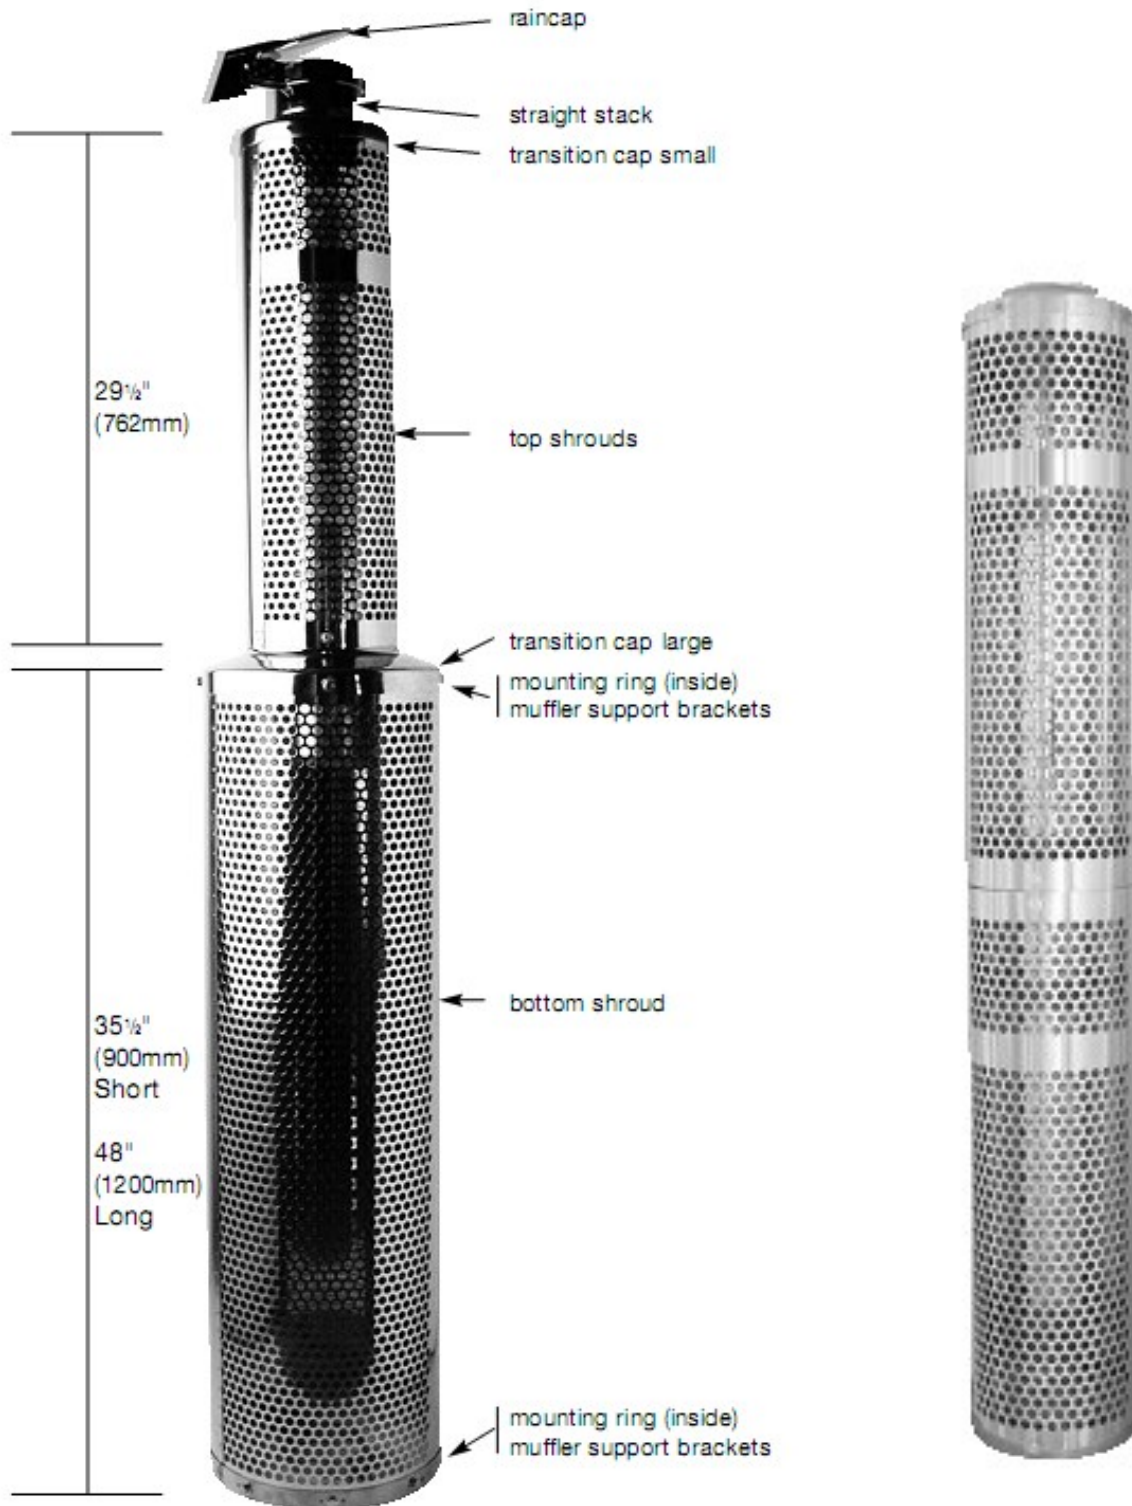

- these must be ordered separately if required
- shrouds will be assembled for transport if requested.

Tanker Kit Exhaust Stacks are 1 metre long to allow for extra clearance for a raincap to fully open without touching the top transition cap. Longer stacks or deflectors can be used if required.

Pipe Shroud Connect Rings joins pipe shroud sections in pipe shroud kits.

Spare parts are available separately.

FLAME PROOF TANKER KITS

Mufflers must be ordered separately if required

DESCRIPTION
5" in 5" out 6" diameter body 44" long
5" in 6" out 6" diameter body 44" long

Nelson Sports Mufflers are manufactured at our Rocklea plant and are designed to provide maximum exhaust gas flow without restriction. Manufactured from aluminised steel with internal strength the Nelson Sports Muffler will provide years of satisfaction. Maximum power can be achieved with a distinctive exhaust tone. They come with a 150mm diameter body but with a choice of inlet and outlet sizes and installation clamping is available.

Please note these units do not conform to current ADR exhaust noise regulations & care must be exercised using engine compression brakes in residential areas.

UNIVERSAL SWIVEL HANGERS

PART NO	LENGTH	
89519K	244mm	9 ³ / ₅ "
90863K	337mm	13 ¹ / ₄ "
90843K	440mm	17 ¹ / ₄ "

- Several holes allow for quick installation of the required length.
- U-Bolt inserted through the closed square end and is attached to the exhaust component.
- Rubber isolator section allows for the bracket to 'swing' and absorb any vibration that may occur.

UNIVERSAL MUFFLER HANGERS—305mm Length

PART NO	BODY DIAMETER	
89534K	152mm	6"
89535K	178mm	7"

89551K	254mm x 381mm	10" x 15"

- Heavy duty muffler body clamp and hanger strap.
- The strap can be shaped to fit the installation. Use for horizontal or vertical application.
- Use two for maximum rigidity.

- Designed for universal application with a minimum of restriction on the engine. They work well as add-on units to existing exhaust systems. Their light weight and small size reduce stress and vibration to the rest of the exhaust system. Typical applications include logging and construction equipment, agricultural machinery, off road trucks, airport equipment, forestry and military vehicles.
- All arrestors exceed U.S. Forestry requirements, and are qualified and tested for vertical and horizontal installations under the U.S. Forestry Service Standard 5100-1b.
- All inlets are slotted tube connections. Outlets are OD tubing.
- CFM rating is based on a pressure drop of 1PSI.

NELSON EXHAUST RETURNS

Returns

Our policy on standard products that have to be returned is

- Prior notice must be received by the Sales Team before receipt of any goods;
- Goods must be accompanied by a copy of the original invoice;
- Goods must not be damaged or altered in any way and in original carton/box;
- All standard line items returned for credit after seven (7) days will be subject to a 10% re-stocking fee;
- Manufactured products & items cut to length cannot be returned;
- Freight costs will be the responsibility of the sender unless prior arrangements are made.

ADDITIONAL EXTRAS

Powder Coating & Chroming

Nelson Exhaust is also able to have your product powder coated or chromed to your requirements. Please speak with one of our informative sales team who will be able to advise you on what the requirements are, price and turn around time.
